

# H. ADVANCE TITLE INFORMATION

## BEST OF OMEGA

by HENNING MÜTZLITZ

### CONTENT:

A range of exclusive, large format photographs, informative texts and technical details are the best way to present the most beautiful and most important wristwatches of the world's largest watch manufacturer, Omega. What made the Swiss luxury brand so memorable was their involvement in sports timekeeping and their sense for extraordinary events, e.g. they invented the watch that went to the moon and they stole the heart of James Bond by supplying him with the Seamaster.

Henning Müzlitz, well respected writer of Armbanduhren Magazine presents about one hundred of the most remarkable models: the legendary Speedmaster "Moonwatch", which has preserved its unique character since 1957, today's wristwatches with Co-Axial technology, special editions such as "The Legend Collection", the "James Bond Edition" and the "Olympic Collection", Seamaster and many more exclusive models.

A must-have for all fans and collectors of these unique wristwatches.

Bilingual text German/English

Rights all available
