WRISTWATCHES

LEGENDARY MODELS FROM ALPINA TO ZENITH

by STEFAN MUSER

CONTENT:

Peter Braun, chief editor of Germany's well respected special interest magazine *Armbanduhren*, has compiled another wristwatch bible with spectacular photography and detailed information on the most remarkable and most precious timepieces produced during the past decades. Each model is described with text and illustrated in a full colour picture.

The book as such is divided into decades, starting with the early 1920s up until today. It highlights the respective prominent achievement during that particular decade interspersed with portraits of special manufacturers such as Omega, Rolex, Patek Philippe, Cartier and many more.

A true coffee table book that invites the reader to dive into the wonderful world of the small masterpieces of human technology.
