MAKING-OF A CLASSIC MORGAN CAR

by DAGMAR & ANDREAS HENSING

CONTENT:

Morgan cars have long become famous the world over for their unique blend of charisma, quality materials, craftsmanship and performance. Established in 1909 by H.F.S. Morgan the brand is the last remaining family owned, independent, innovative British motor manufacturer.

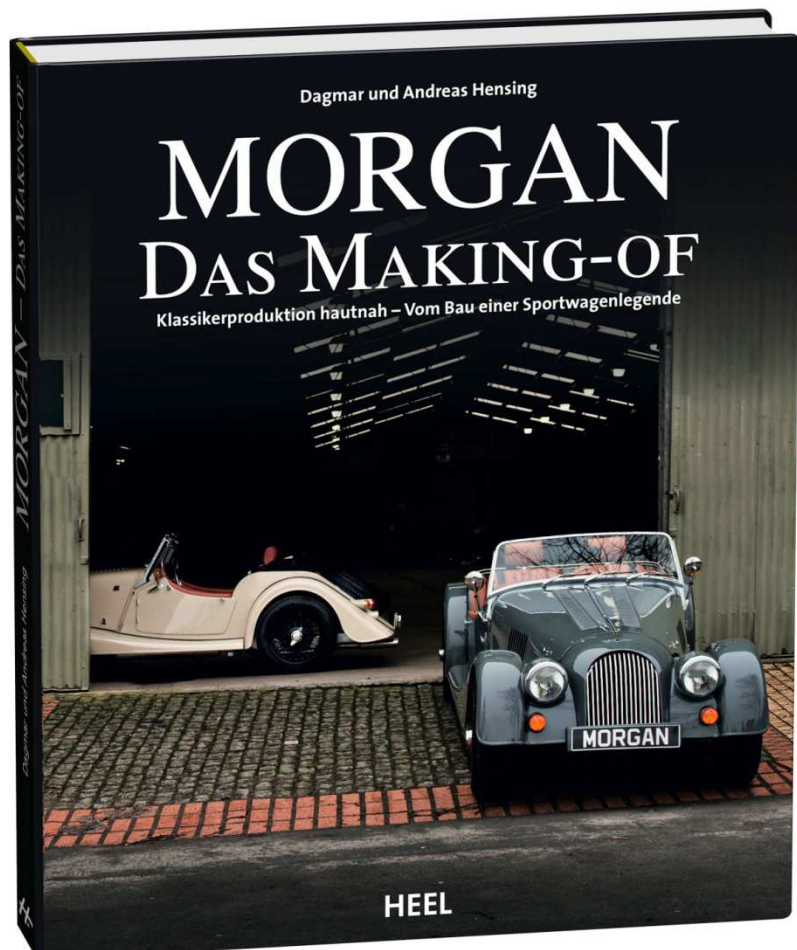

The authors Dagmar and Andreas Hensing have had the unique opportunity to stay in the beautiful spa town of Malvern, Worcestershire, and watch the exemplified 30-days assembly of a classic Morgan car within the original factory buildings. There has never been such a profound glance behind the scenes before – a feast for every Morgan enthusiast!

Numerous high-quality photos, especially commissioned for this book project, in-depth explanations on the particular production stages and interviews with employees involved make this volume a unique documentary for current and future generations.
