

H. TITLE INFORMATION

VESPA MOTORCYCLES

by GERHARD SIEM

CONTENT:

This new book from our bestselling bargain book series pays tribute to the internationally known quintessential scooter – the Vespa – which will be celebrating its 70th anniversary in 2016. What's so astonishing about this scooter is that Vespa is maturing without losing its attraction: it's still a symbol of style and freedom around the world.

The author Gerhard Siem, a well-known specialist on motorcycles, and author of "*The best motorcycles of all time*" published in 2013 within the same series, pays tribute in this new colourful and quirky compilation. While listing all models along with the most important technical specifications, starting with the first Vespa 98, called "Paperino", built by Piaggio manufacturers in 1946, this model history is also filled with stunning colour photographs and illustrations.
