THE LEGAL WAY TO CAR TUNING

by Denis 'Phoenixx' Marasciulo

CONTENT:

YouTuber Denis 'Phoenixx' Marasciulo is Germany's No. 1 tuning guru. He keeps presenting his most spectacular modified cars at tuning fairs throughout Europe – and the best thing about them, they are completely street-legal! All modifying instructions in his first book are approved by German TÜV (technical inspection association) and can easily be applied without any legal consequences.

His design ideas are inspired by motorsports legend Johnny Cecotto, DTM cars and also safety cars. His understanding of tuning implies basic tasks referring to wheel rims, foil application and chassis, but what he actually strives for are fundamental and extensive modifications.

The author started to screw on his first moped at the age of 14, and when he was 16 his scooter had to be optimized. The moment he owned his first car at the age of 18, there was no stopping him from tuning and optimizing all kinds of cars. He works as an automotive salesperson and also acts as an event manager in tuning and motorsports.
