# GUIDE TO UPCYCLING VINTAGE CHAIRS

by Esther Ollick

## CONTENT:

This is the first volume of a new series dedicated to the upcycling of various pieces of furniture, starting with repairing, restoring and refinishing of chairs – may they be heirlooms, flea market treasures or just old and beloved pieces having become wobbly and shabby.

The author supplies step-by-step instructions on how to upcycle the frame (either by grinding, oil-impregnating or varnishing), the chair-back, the seat and how to upholster or dye the cushion.

She further explains which kinds of tools and equipment are required in order to successfully turn these old pieces into colourful new eye-catchers!

**The author**, who is a trained interior designer, runs her own YouTube channel on DIY and upcycling. She also appears as an expert on vintage furniture in various TV shows on appraisal and disposal of antiques, heirlooms or collectors' items.
