

H. ADVANCE TITLE INFORMATION

CHESS FOR KIDS

by Axel Gutjahr

CONTENT:

Chess does definitely stimulate logical and forward-looking reasoning, as well as spatial thinking, already for kids from 5 to 6 years upwards.

This new guide, written by an author who used to work as a chess trainer for children and teenagers, invites interested kids to explore the world of chess by taking them on an exciting and spooky adventure within the ruins of castle Rochenstein. Besides chess pieces coming to life, there is a smart little goblin who guides the children through the scene, explains the figurines' respective roles on the chess board and within the game, and answers all kinds of questions.

Next to basic terms and rules, thus explained in a child-friendly way, young readers also get introduced into the art of setting traps, special openings, as well as tactics and strategies during the course of the game.

Educative (and spooky!) fun for kids from 8 – 12 years!

Rights all available

SPECIFICATIONS:

- 144 pages
- many colour illustrations
- paperback
- trim size 189 x 230 mm
- retail price: € 14.99
- ISBN 978-3-96664-365-8
