

HAFERLSCHUH

THE TRADITIONAL BAVARIAN SHOE

by Helge Sternke & Schuh Bertl

CONTENT:

What is a Haferl shoe and what makes it so special? As a typical Bavarian everyday shoe, there are numerous variants, some of which are laced on the side. Whether it's the history of the shoe or its high-quality manufacture - Munich's traditional shoemaker Schuh Bertl, known from numerous media reports, and Helge Sternke provide answers all about the classic Haferl shoe.

The beautifully illustrated volume tells everything about the origin, manufacture, distinctive features and the different designs. It includes a presentation of the production process of a Haferl shoe in more than 100 hand-drawn individual steps.

The author Schuh-Bertl has been running his shoemaker's shop in Munich for over 25 years, which he took over in 1989. In the beginning, only a few pairs and mostly custom-made shoes went over the counter, but today he can no longer cope with the large demand from all over the world on his own and employs around 40 craftsmen.
