

H. TITLE INFORMATION

SUPER TRUCKS

by Michael Füngeling

CONTENT:

From the beginnings to today's electric and hydrogen concepts, this book is dedicated to the most popular, most powerful and most unusual trucks from international manufacturers. From the simple small truck to the 40-tonne truck and the up to 50-metre-long roadtrains in Australia: With informative texts and spectacular visual material as well as with numerous technical data, the latest volume from the HEEL success series tells the development history of these transport wonders. A must for all truckers and truck enthusiasts, young and old.

The author began writing as a journalist while still studying history. After working for radio and television in Germany and abroad, he switched to the print sector in 1992 and since then has been writing for various specialized magazines, next to writing books.
