

H. ADVANCE TITLE INFORMATION

LEGENDARY TRAINS

by Jörg Hajt / Udo Paulitz

CONTENT:

The invention of the railway once changed the world: whether steam locomotive, electric locomotive or diesel locomotives - since "Locomotion No. 1", which was celebrated as the first public railway in England on 27 September 1825, technology has developed rapidly in the face of the ever-growing demand for transport services.

In this book you will learn all about the legendary trains of the world. The different series are presented with detailed descriptions and the most important technical data and areas of application. A wealth of emotional images, illustrations and interesting facts about the railway complete this publication.

Step into a railway adventure without limits!
